Australia**

Quick Guide

Live tracking view:

You can choose live tracking at any time for peace of mind.

www.gpstrackersaustralia.com.au

**Thank you for
choosing the T200
3G Tracker + SOS
Duress Alarm**

Packing List:

- T200 Product
- 1430mAh, 3.7V Li-ion Battery
- USB (typeA) to micro USB Power cable (45 cm)
- Quick User Guide

Please note that the speaker of your T200 unit is located on the top, the microphone is located on the bottom.

Remove battery cover:

As indicated by red circle, press the cover at the center and pull downward to remove the battery cover.

Install SIM card and battery:

As shown below, install SIM card first (left), then battery (right). The orange LED blinks for 5 seconds then switches off as the battery gets connected. Ensure your SIM has 3G data service enabled and the PIN code on the SIM is disabled.

Fully charge the battery:

The micro USB connector connects to the micro USB slot (above). Connect micro USB connector to T200 and USB connector to a 5V USB power source. The orange LED showing during charging will disappear when unit is fully charged.

SOS Help button:

Pressing the SOS button will make a call, send an SMS and data to the cloud. Both orange and green LEDs blink alternately.

To track on your mobile:

Download tracking APP to your mobile by scanning QR codes provided on product box.

Run your APP & Login:

Touch the camera icon and scan the QR code provided on the box of your T200. Choose the code for your mobile iPhone or Android phone.

Setup your profile:

Now set up the profile for your personal tracker. Browse through the options and follow the prompts.
